SOMMA

A2 AESTHETIC

LOCATED IN 6 SALON BIRMINGHAM

SO MANY WAYS TO FEEL BEAUTIFUL

Restore your youth. Refresh your beauty. Renew your soul.

At A2 Aesthetic at SOMA Aesthetic, do all that and more with our extensive selection of non-invasive cosmetic procedures. Led by board-certified plastic surgeon William J. Pittas, our team of experts can design a customized treatment plan for you using non-surgical treatments and state-of-the-art technology.

Discover all the ways we can help you look and feel your best.

INJECTABLES

BOTOX, DYSPORT

Soften moderate to severe lines and wrinkles in the forehead, crow's feet and frown lines, and prevent new lines from forming with Botox injections. It produces noticeable but subtle results that last up to 4 months – with little to no downtime.

15 minutes - \$12 per unit

LIP FLIP

This non-surgical procedure temporarily relaxes the muscle in the upper lip, causing it to roll upward slightly, which creates a more defined and full shape that doesn't disappear when you smile. Smooths vertical lines as well.

15 minutes - \$99

LIP FILLER

We use our own signature technique to achieve a full, plumped pout. This treatment helps correct lip asymmetries, reduces the appearance of fine lines on the lips and mouth area, defines the lip shape and cupid's bow, and adds fullness.

30 minutes - starting at \$700

HYPERHIDROSIS

By strategically targeting the sweat glands in the underarm region, Botox effectively disrupts the excessive sweating process. The outcome is not only a reduction in sweat production but also a liberation from the social discomfort and self-consciousness that often accompany hyperhidrosis.

30 minutes – starting at \$1,000

DERMAL FILLER

Dermal fillers are gel-like substances that restore lost volume to the face, plump thin lips, enhance shallow contours, soften facial creases, remove wrinkles and improve the appearance of recessed scars.

Full syringe - starting at \$650

Half syringe - starting at \$450

FILLER DISSOLVENT

Dissolving dermal filler is a safe, effective cosmetic procedure to reduce the results of hyaluronic acid dermal fillers.

Small area - starting at \$125 (0.1ml-0.4ml)

Large area - starting at \$200 (0.5ml-1ml)

CHEEK FILLER

Cheek filler lifts and contours the cheekbones and rejuvenates the mid-face by smoothing wrinkles and creating more defined and sculpted cheekbones.

30 minutes - starting at \$700

PRP

Platelet Rich Plasma has been used as a treatment for hair loss or thinning. When applied to the scalp or injected into the affected area, PRP may stimulate hair follicles, promote hair growth, and improve hair density. PRP therapy has been used for skin rejuvenation purposes. When combined with procedures such as microneedling or applied topically, PRP may help improve skin texture, tone, and overall appearance.

\$550 per treatment, \$1,500 package of 3

UNDER-EYE FILLER

This treatment rejuvenates hollowing under the eyes and immediately helps correct darkness underneath the eyes, resulting in a more refreshed appearance.

30 minutes - starting at \$700

AESTHETICS

DERMAPLANING

Dermaplaning is an exfoliation treatment that simply and safely opens the pores using a small blade and removes unwanted vellus hair from the face (peach fuzz).

\$100 per treatment, \$60 add-on

MICRONEEDLING

By creating minor skin injury during the procedure, the skin's natural healing process initiates the production of new collagen and elastin fibers that thicken the skin and reduce the appearance of wrinkles, acne scarring, sun damage, and stretch marks.

Face Only: \$300, package of 3: \$800

Face + Neck: \$350, package of 3: \$950

Face + Neck + Chest: \$400, package of 3: \$1,100

CHEMICAL PEELS

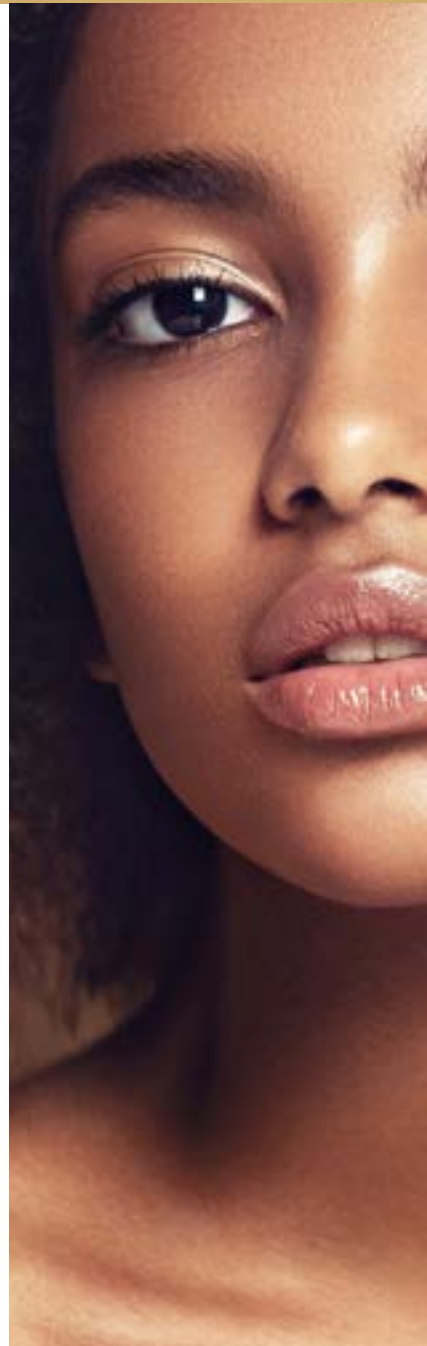

During a chemical peel, layers of old or damaged skin are dissolved, triggering the body to renew and refresh the skin with healthy skin cells. A chemical peel provides a dramatic boost in collagen and elastin.

starting at \$150

SCLEROTHERAPY

Sclerotherapy diminishes varicose and spider veins by using tiny needle injections of medication that collapse the vein, which is later absorbed into the body.

starting at \$400

LASER RESURFACING

Whether you're dealing with fine lines, sun damage, acne scars, or age spots, MultiFrax laser treatments can help you achieve your skincare goals. The procedure works by creating tiny microthermal zones in the skin, stimulating the body's natural healing process and encouraging the growth of new, healthy tissue.

Mini

Face Only: \$500

Face + Neck: \$750

Face + Neck + Chest: \$900

Dual

Face Only: \$1,000

Face + Neck: \$1,200

Face + Neck + Chest: \$1,500

DIAMOND GLOW

The DiamondGlow utilizes a diamond tip wand that delivers a next-level resurfacing treatment that deeply cleans and rejuvenates the skin. This innovative hydro facial treatment exfoliates with microdermabrasion, extracts, and infuses serums into the skin to give our clients that extra deep clean they have been asking for.

Face Only: \$150

Face + Neck: \$200

Face + Neck + Chest: \$300

INTENSE PULSED LIGHT - IPL

Lucent IPL (Intense Pulsed Light), also known as photorejuvenation, is a low-risk, light-based treatment clinically proven to reverse environmental skin damage, which causes premature aging, sun spots, redness, and acne scars.

Face Only: \$450, package of 3: \$1,200

Face + Neck: \$550, package of 3: \$1,500

Face + Neck + Chest: \$650, package of 3: \$1,800

CUSTOM CONTOUR

JAWLINE SCULPTING

Ideal for men or women who want an improved side profile, dermal filler creates a more angular, contoured and sculpted jawline.

30 minutes - starting at \$700

CHIN AUGMENTATION

As we age, we lose supportive bone and soft tissue in the key focal area of the face. Chin dermal fillers counteract that process by restoring proportion and harmony by redefining the lower facial proportions to improve overall appearance.

30 minutes - starting at \$700

TEMPLE FILLER

Loss of volume in the temples can have a big impact on the face. By targeting temple hollows with an injectable dermal filler, we achieve a lifted appearance – like having a mini facelift without the use of scalpels.

30 minutes - starting at \$700

All face and body procedures begin with a professional skin consultation by our medically trained aesthetic professionals and are customized to meet each client's needs. For optimal results, we recommend purchasing a full series of treatments.

CLENCHING

Also known as masseter or jawline slimming, this is a simple procedure to combat facial heaviness, creating a more oval facial shape. Small injections of Botox offer an effective solution to slimming down the face, restoring its youthful shape.

15 minutes - \$14 per unit

NON-SURGICAL RHINOPLASTY

The nose is a dominant facial feature so any major flaws can offset facial symmetry and balance. We use injectable fillers to alter the tip, shape the bridge of the nose and smooth any bumps or ridges.

30 minutes - starting at \$800

SCULPTRA FACE

Sculptra stimulates collagen production, reducing deep lines, creases, and folds for a more youthful appearance. Results gradually improve over several weeks, achieving natural-looking rejuvenation without the appearance of cosmetic work.

30 minutes - starting at \$800/vial

NON-SURGICAL BUTT LIFT

Adding a biostimulator, such as Sculptra, to the "hip-dips" to help promote collagen, give more volume, improve the shape, and help improve skin quality to the area.

By consultation

IV THERAPY

IV Vitamin Therapy is a supervised medical technique that permits rapid delivery of fluids, nutrients, and medication utilizing an intravenous line (IV). IV therapy can boost your immune system, speed up your metabolism, and/or give quality hydration. IV Therapy has been shown to optimize wellness and support all health efforts, from improving energy levels to supporting weight loss and building muscle. Our providers can discuss all options to choose from.

Up to 2 vitamins - \$149, \$15 for each additional vitamin / additive

bHRT

Bio-Identical Hormone Replacement Therapy (BHRT) uses hormones that have identical pharmacological action to those the human body produces, and can be measured in your blood just like the hormones you naturally produce. BHRT is used to alleviate or reduce symptoms of hormone deficiency.
